

CRISTOBAL TORRES

Senior Full Stack Web Developer — React / Node

ctmelgoza@gmail.com | linkedin.com/in/ctmelgoza

SUMMARY

Senior Full Stack Web Developer with 10+ years of experience building, scaling, and maintaining production web applications for remote-first teams. Deep expertise in React and Node.js, including complex system migrations, performance optimization, and long-term maintainability. Trusted to execute independently on contract engagements while aligning closely with product and business goals.

CORE SKILLS

React • TypeScript • Node.js • REST APIs • Microservices • CI/CD • Performance Optimization • JavaScript (ES6+) • HTML • CSS / SCSS • PHP (Laravel) • Automated Testing • Git • Agile / Scrum

EXPERIENCE

Senior Web Developer — Necodex (Remote | 10/2025 – Present)

React, Node.js, TypeScript

- Develop and maintain scalable full-stack applications
- Translate product requirements into clean, maintainable solutions
- Collaborate asynchronously to deliver production-ready features
- Improve performance, reliability, and developer experience

Senior Web Developer / Technical Lead — Raffoom Digital (Remote | 10/2021 – 10/2025)

React, Node.js, PHP, Microservices

- Designed reusable UI component libraries used across internal platforms
- Built and maintained back-office systems for gaming applications
- Improved stability and release velocity via CI/CD and automated testing
- Remained hands-on in architecture and implementation

Senior Web Developer — Rank Interactive (Remote | 10/2018 – 10/2021)

Angular, Node.js, Microservices

- Migrated 12 high-traffic platforms from legacy stacks to modern microservices
- Designed APIs supporting high concurrency and traffic spikes
- Coordinated deployments with minimal downtime

Senior Web Developer — CENFES A.C. (05/2016 – 10/2018)

PHP, Vue.js

- Migrated legacy Perl systems to modern PHP + Vue.js architectures
- Introduced CI practices and optimized frontend performance

Web Developer — Telmex / Instituto de Investigaciones Eléctricas (2010 – 2016)

- Frontend and backend development for high-availability platforms
- Focused on performance, maintainability, and cross-browser compatibility

KEY ACHIEVEMENTS

- Migrated 12 production websites with **<1% downtime** • Improved application performance by **up to 35%** • Reduced developer onboarding time by **~30%**

EDUCATION

Bachelor of Science — IT Solutions (Coding, DBA, Networking) — Universidad La Salle Cuernavaca A.C.
